Customized Approach

The Center for Career & Professional Development (CCPD) uses a four-year learning cycle that helps students take charge of their career development. Our career coaching team works with students through each phase of the cycle — helping students reach their goals and potential, understand who they are, and where they want to go.

Career Education

Students benefit from a supportive campus culture where faculty, staff, alumni, and industry partners play an active role in their career development. Our career coaching team is embedded in the three undergraduate colleges to deliver customized career education and opportunities to targeted student populations.

Career Connections

The mission of CCPD is to provide career education and connections that support student success. We fulfill this mission by actively developing opportunities for students to connect with industry partners and alumni through externships, internships, co-ops, immersion trips, career expo's, full-time positions, on-campus interviews, and career programs.

Graduate and Professional Schools and Fields of Study

25% of the respondents from the Lehigh Class of 2016 chose to attend graduate or professional school. This 25% includes Lehigh President's Scholars.

In 2016, **95%** of the Lehigh candidates who applied to allopathic (M.D.) **medical schools** with grade point averages of 3.7 or better and MCAT scores at the 80th percentile or above were accepted (3.7 GPA/80th percentile MCAT were the national averages of students accepted into medical schools).

Over the last three years, an average of **92%** of Lehigh applicants received acceptances to **law school**, as compared with the three-year national average of 78%.

Overall, 95% of the class of 2016 achieved career-related employment, entered graduate school, or landed other opportunities within their plan. Undergraduate student outcome data for the Lehigh University Class of 2016 includes students who received bachelor's degrees between July 1, 2015 and June 30, 2016. Of the 1,159 bachelor degree recipients, verifiable post-graduation career activities were obtained for 88% of the graduates. This data was acquired from graduates, employers, university staff members, parents, and LinkedIn profiles.
